

LEARN AT CHESTER ZOO

Massive Elephant Maths!

Find the signs telling you which elephant is which.

Count how many elephants we have at Chester Zoo using the signs. _____

Count how many elephants you can see on the paddock. _____

Did you spot all of them? Let's check!

$$\square - \square = \square$$

Number of
elephants
on the
signs

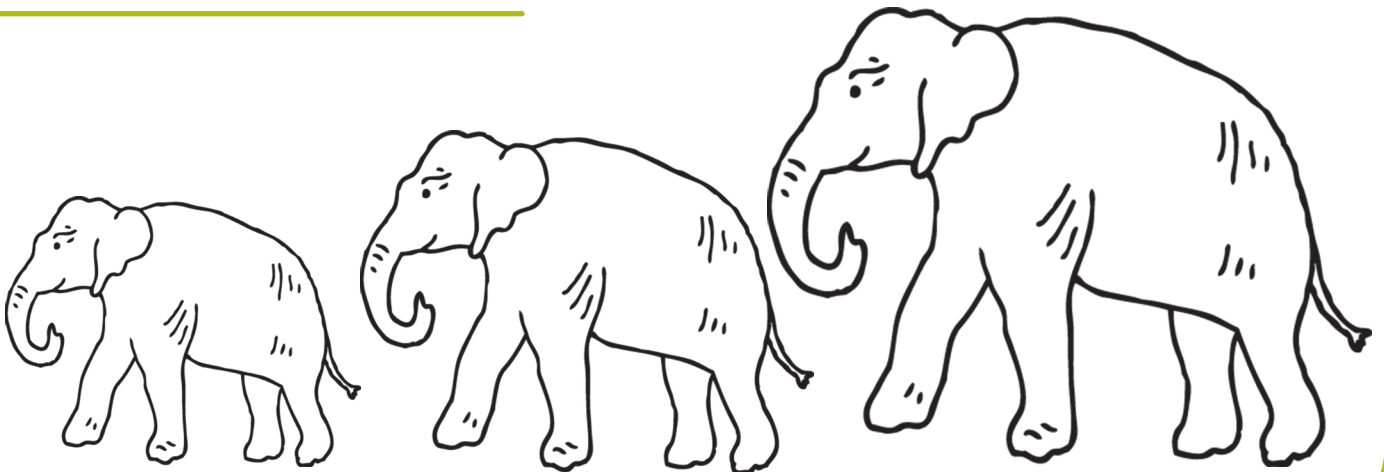

Number of
elephants
spotted
on the
paddock

Look back at the paddock.

Tell your friend which elephant is the tallest.

Do they agree? _____

Which is the shortest?

Look at the signs with the names of our elephants

How many males (boys) do we have? _____

How many females (girls) do we have? _____

How many more females than males do we have?

$$\begin{array}{c} \square \\ \text{Number} \\ \text{of females} \end{array} - \begin{array}{c} \square \\ \text{Number} \\ \text{of males} \end{array} = \square$$

Extra elephant info!

An elephant has **five** toes on **BOTH** front feet.

How many toes is this in total? _____

An elephant has **four** toes on **BOTH** back feet.

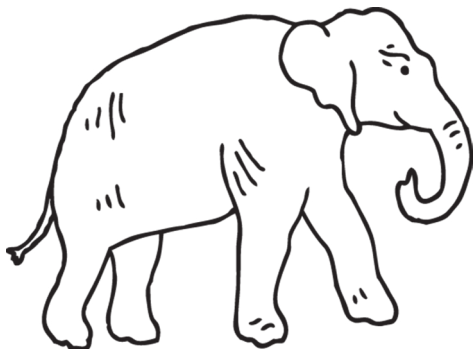

All together, how many toes does an elephant have? _____

$$\square + \square = \square$$

Poo!

An elephant poos up to 18 times a day (wow!)

Count how many poos you can see!

Make a tally:

Could one elephant have done them all?
