

Become a Patron. Empower conservation.

Chester Zoo is a force for nature - but we can only protect wildlife with the support of people like you.

More than a million species are at risk of extinction and many rely on charities like ours to survive. **Your support can make a real difference.**

By becoming a Patron you will play a vital role in helping save species and protect habitats, here in the UK and around the world. All while enjoying exclusive benefits and closer access to our work. Together we can build a future where nature can survive and thrive.

A brighter future

Elephant endotheliotropic herpesvirus (EEHV) is a deadly virus that affects young elephants in both zoos and the wild. Through years of work with our own herd and global partners, we've developed the world's first vaccine now in the testing phase.

Our hope is for the vaccine to be freely available to help save as many elephants as possible from this devastating disease and help to boost populations of this endangered species. **Become a Patron today and help us continue this groundbreaking work.**

As a Chester Zoo Patron, you will play an integral role in saving species from extinction and ensuring nature can survive for generations to come.

As a Patron, you'll enjoy membership to Chester Zoo, along with exclusive insight into our groundbreaking conservation work in Chester and around the world. You'll also have the chance to meet our pioneering conservation experts and discover first-hand how we care for and protect threatened species.

“Being a Patron is about supporting wildlife conservation and making forever memories, and it's the zoo's best-kept secret! I have no words to describe how special it was to have a personal guided tour of the snow leopard habitat, or to spend the afternoon with the extraordinary vet team.”
